merchants of the city participating in the carrying on of the event. It would be a great trade builder, as would draw people here from a wide radius of surrounding territory.

Opening Burkhardt Stores Proves Big Success

A PUBLICITY PROJECT CHARACTERISTIC OF THE ENTERPRISE OF THE PROGRESSIVE MERCHANTS WHO HAVE GIVEN TORRANCE SUCH TRULY METROPOLITAN STORES.

HERALD SUGGESTS THAT SOME SIMILAR FETE BE MADE REGULAR MONTHLY EVENT AS HAVING EXCEPTIONAL VALUE AS TRADE PUBLICITY AND A TOWN BOOSTING EVENT.

Torrance will long remember the opening of the stores in the new and beautiful Burkhardt building on EI Prado avenue last Tuesday night, for there was a large crowd through the afternoon and evening and everyone had a "grand and glorious time."

The building is a credit to Torrance and to its builder, in every way. And it is indeed a needed addition to Torrance. We needed the new storerooms the building provides, but still more the fourteen three-room apartments found on the second floor. Torrance is ever demanding more housing facilities, and needs 500 more new houses at this time, and will continue to do so for a long time, as the up-building of Torrance has but just begun.

The Wonderful New Market

The Quality Public Market, as the largest and most central of the new stores, and because of the delicious and dainty food products served by the charming lady demonstrators, was the center of attraction. "QUALITY" is the motto of this store, and it is truly descriptive of the store and the products carried. Light, sanitary, artistically displayed goods on attractive shelves, and the goods themselves of the highest quality, the Quality Market is an establishment to be proud of.

It combines in one store three affiliated lines of food products. Harry Paige's grocery and fruit and vegetable department carries the choicest goods. "Quality" is Paige's hobby, and the new market is his ideal and dream of store service come true. One enthusiastic lady from Los Angeles, seeing here so many quality products so difficult to obtain in the ordinary grocery store, returned again and again to purchase some of the fresh quality goods.

With the Sanitary Market W. R. Lee opens his second meat market in Torrance. In keeping with its name Mr. Lee arranged for the installation of the latest improved refrigerating and sanitary methods and equipment. The choicest meats in the market are found here kept under the most sanitary conditions.

That the best is none too good for Torrance is well exemplified at the Torrance Toggery. The very entrance is striking. The latest ideas in show window arrangement were executed here, such as is found only in metropolitan stores. Entering, one is lost in admiration of the rich, beautiful walnut fixtures and the attractive arrangement and display of the goods, which, one notes at once, are of the very best, nationally advertised lines, known everywhere for their quality, style, wearing and satisfaction-giving features. Staple lines as well, with everything in clothing and furnishings for men, and the famous Walk-Over shoes, for all the family. Torrance Plumbing Co.

You suddenly realize that even a plumbing shop may be made attractive, as you enter the offices of the Torrance Plumbing Co. If it were not for the bathroom and other fixtures so attractively displayed you might think you were entering the office of some big corporation. Through satisfactory service has Mr. F. L. Parks attained his present most enviable standing as one of Torrance's most progressive young business men.

Mr. John Holm, Torrance's enterprising contractor and builder also has his office here.

Street Dance and Confetti Battle
There had been a steady flow of people all through the afternoon, but the promised street dancing in the evening brought them in ever-increasing crowds until the street in front of the new building was packed with merry dancers and laughing confetti throwers.

Should Be Permanent Feature

The Opening Day celebration of the new stores was a most successful advertising and publicity "stunt," and it should, the Herald believes, be made a regular monthly event, with all the

necessary to offer some explanation. Some such remarks as the following have been made: "we do not approve of motion pictures and consider them injurious to the minds of young people."

We would like to have it clearly understood that the picture machine which the P.-T. A. are endeavoring to place in the Torrance school is to be used for educational purposes during the school hours only, and not as a matter of entertaining the children, as has been suggested. Educational films are supplied both by the Los Angeles and County boards of education.

Any person who has tried to keep in touch with the latest and most up-to-date methods used in the schools today, would hardly make such remarks, for it is an acknowledged fact, and so stated by those best qualified to judge, that the motion picture is one of the greatest educational factors of the day.

The picture machine will be used for entertainments at evening gatherings in the school auditorium whenever it seems advisable and only the cleanest pictures will be shown. These pictures will be censored by a committee of the P.-T. A., and will be strictly high-class in every way.
